Status of Amendments

The instant application is a continuation of US Serial No. 08/889,825, now issued as RE37,315, which is a reissue of US Patent No. 5,431,648. The claims in the instant application were filed based on the application as originally filed in the '825 application which is the incorrect filing procedure. As this is also a reissue of '648 patent, the claims should be filed relative to the originally filed claim of the '648 patent. Applicant filed a corrective amendment on December 29, 2004 to add new claims 2-12 and to amend claim 1. This too was improper as claim 1 should read exactly as it was reissued in the '315 reissue patent (including brackets and underlines). Any further amendments to originally patented claim 1 (in the '648 patent) must be resubmitted as a new claim. Applicant's supplemental amendment of February 8, 2005 has resubmitted the claims in the proper format, and the application is now ready for examination.

It is noted that RE37,315 included corrections made by Certificate of Corrections.

These corrections should also be reflected in the instant application.

Reissue Applications

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The oath/declaration filed in the instant application is a copy of that filed in the parent application. Applicant is required to file a newly executed oath/declaration that specifically identifies at least one error being corrected by the instant reissue application.

Claims 1-13 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath/declataion is set forth in the discussion above in this Office action.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 2-13 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 81-86 of U.S. Patent No. RE37,315. Although the conflicting claims are not identical, they are not patentably distinct from each other because the specific nomenclature used to identify the channels (e.g. first and second versus central and side) is deemed to be an obvious distinction.

Art Unit: 3739

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Peffley whose telephone number is (571) 272-4770. The examiner can normally be reached on Mon-Fri from 6am-3pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda Dvorak can be reached on (571) 272-4764. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
